

AI Transparency Declaration Statement

Module: Web Development 55-407821

Task One: Prototype Web Application

SHU AI Transparency Scale (AITS)	AI for Shaping
Transparency Statement	AI has been used to shape the initial and/or final parts of the activity.
AI Contributions	AI is used for shaping parts of the activity. This includes initial outlining, concept development, prompting thinking, and/or improving structure/quality of the final output.
Human Contribution	Most of the activity is human developed/generated. AI ideas and suggestions are refined and reviewed. AI outputs are used for discrete and specific goals/outcomes.

Briefly describe how AI was used or confirm that no AI was used.

I used AI tools such as Visual Studio Code Copilot to help with basic prompting and shaping of ideas and basic code suggestions while building the website. I reviewed and edited all code myself to make sure it met the assignment requirements.
